# Philippine Rise Marine Resource Reserve

## Biodiversity Resource Profile

The Philippine Rise is a vast underwater plateau measuring 34 million hectares, averaging about 3,000 to 5,000 meters deep. It exhibits a massive deep sea formation of basalt (a common volcanic rock) larger in area than the entire Luzon island. Although a generally barren region with depths unexplored, its shallowest portion, a 17,000 hectare spur at 30-70 meter depths called *the Benham Bank*, is bustling with life.

To date, over 200 species have been found and documented in the Benham Bank<sup>1</sup> with certain portions covered completely in corals, some in meadows seaweeds (*Caulerpa sp.*), it serves as a refuge and nursery for commercial fishes, such as mackerel, marlin, and bluefin tuna; a natural and national treasure for our fisheries resources.

### *DENR's Initiatives on the PH Rise*

For years, the Department of Environment and Natural Resources, thru the Biodiversity Management Bureau, and in coordination and full support with relevant agencies have made efforts in pushing for its protection, sustainable use, and management. Below is the timeline of initiatives for PH Rise.

<b>2016</b>	<ol style="list-style-type: none"> <li>1. Philippine Rise (Benham Bank) internationally recognized, declared, and adopted by the Parties of Convention on Biological Diversity (CBD) as Ecologically and Biologically Significant Marine Area (EBSA)</li> <li>2. Development of PH Rise Management Framework</li> <li>3. Drafting of Executive Issuance for PH Rise protection and conservation</li> </ol>
<b>2017</b>	<ol style="list-style-type: none"> <li>1. Conduct of inter-agency policy dialogues</li> <li>2. Finalization of PH Rise Management Framework</li> <li>3. Planning for the 3rd Scientific Expedition</li> </ol>
<b>2018</b>	<ol style="list-style-type: none"> <li>1. Conduct of the "SECURE PH Rise Expedition"</li> <li>2. Proclamation of portion of PH Rise as Marine Resource Reserve under the NIPAS Act</li> <li>3. Formation of PRMRR Protected Area Management Board</li> <li>4. Formation of Technical Working Group for the Research and Development Agenda in PRMRR</li> </ol>
<b>2019</b>	<ol style="list-style-type: none"> <li>1. Continuation of SECURE PH Rise Expedition</li> <li>2. Development of the PH Rise Management Plan, and Strategic Communication Plan</li> <li>3. Conduct of Stakeholders Consultations, in partnership with BFAR</li> </ol>

Presidential Proclamation No. 489 declares a portion of the Philippine Rise situated within the exclusive economic zone of the Philippine Sea, as protected area under the category of Resource Reserve as defined under Republic Act No. 7586, or the National Integrated Protected Areas System Act of 1992, as amended by Republic Act 11038, or the Expanded NIPAS Act.

Salient points of the said presidential proclamation are as follows:

*Total area of 352,390 hectares*

*Strict Protection Zone  
49,684 hectares*

*Special Fisheries Management  
Area co-management w/ BFAR*

*Strong collaboration among  
national agencies*

*Priority area for  
offshore research*

### ***Recommendations***

In working towards Philippine Rise becoming a fully fledged/operational MPA, the following are essential steps to be conducted:

- a. Finalization and adoption of its management plan, followed by its implementation; and
- b. Institutionalization of the PRMRR PAMB, in accordance with the ENIPAS Act and its Implementing Rules and Regulations.
  - Given the offshore nature of the PRMRR, maintain open communication channels and continuous collaboration and coordination between agencies involved in research, management, and enforcement in the area for increased efficiency of monitoring activities.
  - Continuous support and conduct of in-depth research to support protection and conservation objectives, and ensure the sustainability of marine resources.
  - Educate future generations on the merits of protecting, and conserving the pristine environment in the Philippine Rise.
