Philippine Red List
of threatened wild fauna
PART I - VERTEBRATES

The Philippine Red List Committee for Wild Fauna was established to create and update the national list of threatened species, in pursuit of Section 22 of the Republic Act 9147, better known as the Wildlife Resources Conservation and Protection Act of 2001, as well as the Philippines' commitment to the Convention on Biological Diversity.

First created via Department Administrative Order 2004-15, this is the updated version of Department Administrative Order 2019-09.

Besides the complete list of threatened species of Mammals, Birds, Reptiles and Amphibians, this book contains short profiles as well as a photograph or illustration of each species, to help identify threatened fauna in relevant situations.
